

FM 29: Lunch Talk: Funding for Quantum Projects

Time: Tuesday 12:30–13:45

Location: 2006

Curious about where to get money for your ideas?

With a series of national and international initiatives there are a number of different opportunities to get support for your research. But how to find the best format for basic science or for applied research? This meeting gives you the chance to learn about from representatives from various funding organisations and representatives. This podium discussion includes presentations on funding opportunities by Dr. F. Schlie (BMBF), Dr. A. Deschner (DFG), Dr. T. Driebe (DLR).
