

Room	Monday				Tuesday				Wednesday				Thursday																
	BAR 205	IFW A	IFW D	IFW B	BAR 205	IFW A	IFW D	IFW B	BAR 205	IFW A	IFW D	IFW B	BAR 205	IFW A	IFW D	IFW B													
08:30	Plenary Talk				Plenary Talk				Plenary Talk				Plenary Talk				08:30												
08:45																	08:45												
09:00																	09:00												
09:15																	09:15												
09:30	Invited Talk				Invited Talk				Invited Talk				Invited Talk				09:30												
09:45	Christian Liebscher				Jörg Löffler				Douglas Spearot				Nina Gunkelmann				09:45												
10:00																	10:00												
10:15	Topical Session	Transport	Liquid and	Microstructure		Topical Session	Liquid and	Transport		Topical Session	Topical Session	Computational		Structural	Topical Session	Energy Materials	Computational		10:15										
10:30	Data Driven	Atoms & Ions I	Amorphous Met.	Characterization		Interfaces	Amorphous Met.	Ions & electrons		Data Driven	Interfaces	Mat. Modelling		Materials I	Interfaces	Ion diffusion	Mat. Modelling		10:30										
10:45	Materials		Kinetics &			Diffusion	Metallic Glass			Data Management	Hydrogen at	Matter-Particle			Thermodyn. &		Mechanical		10:45										
11:00	Design I		Modelling								Interfaces	interactions			Microstructure		properties		11:00										
11:15																			11:15										
11:30																			11:30										
11:45	Topical Session	Transport	Liquid and	Microstructure		Topical Session	Liquid and	Sensors and		Topical Session	Topical Session	Energy Materials		Structural	Topical Session	Energy Materials	Computational		11:45										
12:00	Data Driven	Atoms & Ions II	Amorphous Met.	Processing		Interfaces	Amorphous Met.	Actuators		Data Driven	Interfaces	Structure of		Materials II	Interfaces	Intercalation	Mat. Modelling		12:00										
12:15	Materials		Brittle-Ductile			Interactions at	Structure			Descriptors	Theoretical	Battery Materials			Crystallization &		Magnetic Mat.		12:15										
12:30	Design II		transition			Interfaces					Approaches				Microstructure				12:30										
12:45																			12:45										
13:00																			13:00										
13:15	Prize Talk				Prize Talk				Prize Talk				Prize Talk				13:15												
13:30																	13:30												
13:45																	13:45												
14:00	Plenary Talk								Plenary Talk				Plenary Talk				14:00												
14:15																	14:15												
14:30																	14:30												
14:45																	14:45												
15:00	Invited Talk				Topical Session				Invited Talk				Invited Talk				15:00												
15:15	Fritz Körmann				Data Driven				Carolyn Körner				Christian Greiner				15:15												
15:30					Interfaces												15:30												
15:45	Topical Session	Transport	Computational	Microstructure		Energy Materials	Computational		Computational	Topical Session	Energy Materials	Computational	Topical Session	Computational	Nanomaterials I	Mechanical			15:45										
16:00	Data Driven	High Entropy Alloys	Mat. Modelling	Processing &		Battery and Fuel	Mat. Modelling		Mat. Modelling	Interfaces	Functional Mat.	Mat. Modelling	Data Driven	Mat. Modelling		properties I			16:00										
16:15	ML for Damage		Methods I	Imaging		Cell Materials	Hydrogen		Alloys I	Solutes at		Solids & Molecules	ML for Material	Potentials					16:15										
16:30	Prediction									Interfaces I			Characterization						16:30										
16:45																			16:45										
17:00	Topical Session	Transport	Computational		Plenary Session												17:00												
17:15	Data Driven	Heat	Mat. Modelling																		17:15								
17:30			Methods II																		17:30								
17:45																	17:45												
18:00																	18:00												
18:15	Poster Session I				Poster Session II				Computational				Topical Session				Topical Session				18:15								
18:30									Mat. Modelling				Interfaces				Energy Materials				Computational				18:30				
18:45									Methods II				Electronic				Mat. Modelling				Nanomaterials II				Mechanical				18:45
19:00													Properties				Low dimensional				properties II				19:00				
19:15									systems												19:15								
19:30																					19:30								
19:45																					19:45								
20:00																					20:00								
									Bier & Brezeln																				
									Annual General Meeting of the Metal and Material Physics Division (IFW A)								End of the MM Program												
									Evening Lecture
